

FOR BONSAI NURSERIES & SPECIALTY GROWERS

Sell more trees — *without discounting them.*

Expensive bonsai purchases are risky for new growers. The fear of killing the tree keeps customers from ever buying their first. Instead of cutting your margins, give them a year of care guidance with every purchase — at no cost to you.

WHY IT WORKS

Risk reversal.

New growers stop fearing failure — a year of guidance comes in the pot.

Higher AOV.

Confidence converts browsers to buyers, especially on specimen trees.

No discounting.

Your prices and margins stay intact. The perk is software, not a price cut.

FOR YOUR CUSTOMERS

1 year of Pro.

Free with any potted bonsai. Auto-applied on signup.

Care, simplified.
